USA	Connecticut	I-Park	http://www.i-park.org/	Bodies of Care is an explorative workshop series created by Goethe-Institut Indonesien and Sasikirana KoreoLab & Dance Camp that will result in the development and collaborative presentations of performances in public space. It is embedded in Sasikirana's platform DOKUMEN.TARI established in 2020. We will invite ten choreographers and dancers (seven from Indonesia and three from Germany) who are interested in exploring gestures and embodied practices of care (especially community care) through choreography. Artists in the workshops will try to define care and community care in relation to their practices as choreographers, expressly related to the embodiment of care in their communities. Together with Melati Suryodarmo and LIGNA they will create an instructional performance that audiences in different public spaces can conduct. Priority is placed on projects that will benefit from international exchange and a broadening of professional networks. We encourage emerging choreographers from all over Indonesia and Germany to apply.	Portal generally opens in the fall. Deadline for 2021 SRA Program is January 18, 2021. USA	Ossining, NY USA	Bethany Arts Community	http://bethanyarts.org/residencies/	BAC offers short term residencies attracting artists at different stages of their careers from around the world for the development of both new works and works in progress. BAC welcomes artists working across most disciplines, including visual artists in any medium, writers, playwrights, choreographers, musicians, composers, performance artists, filmmakers, and lighting, projection, costume and sound designers. During their time on site, these artists will develop new works while engaging with local artists and the public. The spirit of the program is to provide a collective environment for artists of all disciplines where they can engage in meaningful interaction and stimulating discussions with their peers, while pursuing individual or group projects. It is an ideal setting for the exchange of ideas, the inspiration for new work, and the harmonious cross-fertilization of disciplines. Successful applicants are typically mid-career or established artists. However, emerging artists who believe their work is of exceptional merit are eligible as well. We accept applications from individual artists and small groups of up to 4 members. If you have more than 4 group members please email BAC staff at submit@bethanyarts.org. Singapore	Singapore	M1 Singapore Fringe Festival	https://singaporefringe.com/fringe2022/fringe-2023/?b=ffcb06	We want to hear what artists are concerned with in the world today, and how your artistic response is a call to arms, a healing process, or a road map to a different, better future. For the first time, the Fringe will not provide a curatorial theme to determine our programming. Instead, we want artists to tell your stories with authenticity, and in doing so, shape the conversations that the Fringe offers to the public. Our focus on presenting work fuelled by socially engaged practice remains. That means we are looking for robust artistic processes and accessible presentations that are centred on responding to gaps in communities, collaborative, and tackling current issues of the day.	4 March 2022	Free to apply. Honorarium varies.
